I AM appropriating the alchemical fires of the Holy Spirit.
God is revealing to me the mysteries of the use of divine light.
I AM entering a new understanding of the sacred fire and of the alchemical formulae of fohatic change.
I AM wielding a great light to meet head-on the cataclysmic changes occurring upon Earth.
I AM walking and conversing with God daily.
I AM actively focusing the light of cosmic freedom in the here and now!
I AM understanding the cosmic momentum of the solar frequencies through the crystal of Self, accelerating me into divine gnosis.
I AM assimilating through love the stellar light and the solar light as an adept of the Spirit on behalf of all mankind.
I AM receiving and accepting a new investiture of holy light within my sacred centers.
My chakras are vessels of cosmic consciousness through which the Elohim charge forth their light day and night.
I AM a mirror for God, a cosmic prism and emitter of all that is pure and real from my Sun-source.
I AM actively extending divine currents of all that is good and beautiful in the world.
I breathe the pranic light in and out as a stream of pure love.
I AM accepting my mission and serving as Jesus did on behalf of the evolutions of this world.
With Saint Germain, I AM a cosmic alchemist and I AM an arbiter of my divine destiny.
I accept the spirit of cosmic transmutation this day!
I AM the light of the Holy City within me as I receive anew the Holy Spirit this day.
I AM moving forward in perfect love, which is the key to all alchemy.
I AM the living light of cosmic freedom!
