

## **Children's Protection from Marijuana      CS-19**

Beloved Mother Mary, Raphael, Hilarion, Lady Francesca, Jesus, Magda, John the Beloved, Lady FairGrace, Gloria Grace, Christmas angels; and Arcturian, who wields the violet phaser ray, come forth into the lives of children in all countries and states where the use of marijuana is legal. Protect children and youth who are supported by adults to engage in taking this drug.

We call for the light of God to help parents and teachers realize that even though this drug has been legalized in some places, its physical, mental and emotional effects are damaging to our children's health and well-being.

We see beloved Pallas Athena sending a ray of truth to expose the delusion and illusion of normality surrounding the use of marijuana. We see a recall of its legalization based on evidence of the negative and damaging effects of marijuana on all individuals, including those driving under its influence.

We thank you and send great gratitude to the legions of angels surrounding, protecting, and illumining our children and youth this day, as well as their parents and extended families; their guardians, teachers, religious leaders, and all caregivers.

The light of God always prevails on behalf of our children and youth! (3x) AUM
