

31. Cosmic Harmonies

Chorus (Repeat after each verse)

**Cosmic harmonies,
Balance life through me in the flame of purity.**

Start my day with a smile,
Set my mind on the dial
With the pointer aimed at God-success.
Specify my top goals,
Bridge a way with great souls.
Conscious will I naturally possess.

Help me see the light of God
Shining through each eye I laud,
Teaching me the different points of view.
Each approach is justified
By the way it was derived
From beliefs so very deep and true.

Clean my vessel clear and pure
So God's light can be the cure
Emanating from my centered state.
I abide within God's grace,
Healing calm upon my face.
Loving eyes now change the human fate.

I'm responsible for my feelings,
Use discernment in my dealings.
My New Self replaces the old me.
Mother Light is freely streaming,
Chakras in me are now beaming.
Father's Fire consumes samsara sea.
