

95. Cosmic Violet-Joy Waltz

1. I AM a being of cosmic violet fire.
I AM the holy freedom God desires.
I AM a being of cosmic violet fire.
I AM the holy freedom God desires.
2. O Saint Germain and blessed Portia dear,
By freedom's love flame, transmute doubt and fear.
Precious Gautama, to thy great heart we bow.
Transmute all less than kindness here and now.
3. Divine Director, guide us home to stay.
Teach us to ever walk God's holy way,
To now fulfill our life plan by free will,
And magnify God's Presence every day.
4. Jesus and Mary, blessed Magda, too,
We keep your vigil; hold us close to you.
Protect the babies, little holy ones.
Saint Joseph, guard all God's daughters and sons.
5. Come, dear archangels, dance with us awhile.
Waltzing with you will always make us smile.
Take us to heaven worlds beyond the skies,
And help us heav'n on earth to realize.
6. Our dear Lanello, Morya, by God's power,
Help us to live in His will every hour.
We love your twinkling mirth and poets' souls.
By discipline now help us reach our goals.

7. Our Mother, Clare de Lis, we call to you,
Be with us constantly in all we do.
Beautiful Dreamer, our striving now enfire
As we to our ascension all aspire.

8. Belov'd Maha Chohan, our lovely Paul,
Cherished Kuthumi, Nada, one and all,
Kuan Yin, dear Lanto: forgiveness, wisdom's light,
Illumined mercy now set all things right.

9. Sanat Kumara, we now pledge to stand
Keeping love's holy flame in every land.
Venus and Mother Omega from the sun,
In victory's name, we are forever one.

10. I AM a being of cosmic violet fire.
I AM the holy freedom God desires.
I AM a being of cosmic violet fire.
I AM the holy freedom God desires.
