

## 92. Light of the Violet Flame

Spin and turn, O violet flame,  
Come fill us with your blessing.  
Spread your peace throughout the Earth;  
Within our hearts you live.  
Dancing, spiraling joy abiding,  
Violet flame caressing.  
In our worlds your flame unfurls;  
The love of God unfolds.

Pure flame to set me free,  
Violet candlelight burning,  
Pure Light for all to see,  
Transformation behold.

All ... is mine!  
Pure love divine!  
Oh-h-h-h!

Spin and glow, O violet flame,  
With joy all now victorious.  
Piercing, dazzling, tantalizing—  
All the Earth now raised!

All our hearts now ablaze;  
One with cosmos we'll praise  
Our Dear Saint Germain  
With God evermore!
