

## 17. You Are My Angel

*Instrumental Prelude of 19 seconds*

Beings on the wing from heaven  
Are bidding me to call your name;  
For they say you're an angel of celestial fame.

I have always known your presence,  
And often have I felt your hand.  
And I know you're an angel from a far-off land.

When I close my eyes and listen,  
I can hear your wings of light  
And in heightened adoration we will both take flight.

You are my angel, my beautiful angel,  
You are my angel, my angel of light.

Never have I seen your radiance,  
But always have I felt you near.  
And I know you're an angel, with a heart so pure.

Some day I will know your beauty  
And gaze within your eyes of blue.  
For I know you're an angel, and I love you.

You are my angel, my beautiful angel,  
You are my angel, my angel of light.

Some day I will know your beauty  
And gaze within your eyes of blue.  
For I know you're my angel, and I love you.
